**TIME AND PLACE:** **Monday, June 6, 2005, 6:30 P.M.**  
**Office of Zoning Hearing Room**  
**441 4<sup>th</sup> Street, N.W., Suite 220-South**  
**Washington, D.C. 20001**

**FOR THE PURPOSE OF CONSIDERING THE FOLLOWING:**

**CASE NO. 04-30 (PUD at 17<sup>th</sup> Street and Kalorama Road, N.W. – The Citadel)**

**THIS CASE IS OF INTEREST TO ANC 1-C**

On October 20, 2004, the Office of Zoning received an application from Jemal's Citadel, LLC and Faison Enterprises, Inc. (the Applicant). The Applicant is requesting approval of a Planned Unit Development ("PUD"). The Office of Planning provided its report on December 3, 2004, and the case was set down for hearing on December 14, 2004. The Applicant provided its prehearing statement when the application was initially filed and filed additional supplementary materials on March 11, 2005.

The property that is the subject of this application consists of approximately 42,490 square feet of land area and is located at the northeast corner of the intersection of Kalorama Road and 17<sup>th</sup> Streets, N.W. (Square 2572, Lot 36). The subject property is zoned RC/C-2-B. The Applicant proposes no change in this zoning.

The Applicant proposes to convert the existing and currently vacant building, which has had a history of uses including being a roller skating rink, into a building housing a full-service grocery store and an additional retail or service area, to expand the building (mostly within its existing overall cubic volume) to include an area for general offices and to provide parking on two existing levels for these uses. The maximum height of the building would be fifty-five feet, the height of the existing building. The overall building would increase from 56,796 square feet of gross floor area to 74,913 gross square feet or 1.76 FAR. Of the total gross floor area, 33,195 square feet would be for the full-service grocery store, 4,069 square feet area would be for the other retail or service area, 29,594 square feet would be for the general offices, 5,891 square feet would be for parking spaces and adjacent aisles, and 2,164 square feet would be for the loading area. The architect for the PUD is Esocoff and Associates and the land use counsel is Holland & Knight LLP.

The C-2-B District is designed to provide facilities for shopping and business needs, housing and mixed uses for large segments of the District of Columbia outside the central core. The C-2-B District permits a maximum height of sixty-five feet and a maximum FAR of 3.5, of which no

more than 1.5 may be used for nonresidential purposes. The Reed-Cooke (RC) Overlay District modifies the provisions of the underlying zone with respect to uses and height and provides that no PUD shall exceed the matter-of-right height, bulk and area requirements of the underlying zone. See 11 DCMR § 1402. The Zoning Commission will determine whether the overlay precludes it from granting increased FAR as a PUD development incentive. The Applicant submitted a variance application without conceding that a variance is required, at the request of the Zoning Commission. If the Zoning Commission determines a variance is required, it will consider the variance application concurrently with the PUD.

This public hearing will be conducted in accordance with the contested case provisions of the Zoning Regulations, 11 DCMR §§ 3022.

**How to participate as a witness.**

Interested persons or representatives of organizations may be heard at the public hearing. The Commission also requests that all witnesses prepare their testimony in writing, submit the written testimony prior to giving statements, and limit oral presentations to summaries of the most important points.
